**Machine Solutions Inc. Announces the European Launch of  
Laser Bonding Equipment at MEDTEC Europe 2009**

**Flagstaff, AZ USA, November, 2008 - Machine Solutions Inc.:**

Machine Solutions Inc. (MSI) is pleased to announce the European launch of its new LB1000 Laser Bonding Equipment at the MEDTEC Europe 2009 trade fair in March. The LB1000 offers advanced process control and feedback via closed loop temperature and laser power control for proximal and distal balloon bonds as well as other catheter tube bonding applications. The ability to process based on bond site temperature simplifies profile development and minimizes product variability. Additional features include drop-in product loading, PLC controlled touch screen interface, optional automated bond site alignment, integrated vision assist system, cycle data acquisition and output with networking capability.
