**Machine Solutions Inc. Announces the North American Launch of
Laser Bonding Equipment at MD&M West 2009**

Flagstaff, AZ USA, November, 2008 - Machine Solutions Inc.:

Machine Solutions Inc. (MSI) is pleased to announce the North American launch of its new LB1000 Laser Bonding Equipment at the MD&M West 2009 exposition. The LB1000 offers advanced process control and feedback via closed loop temperature and laser power control for proximal and distal balloon bonds as well as other catheter tube bonding applications. The ability to process based on bond site temperature simplifies profile development and minimizes product variability. Additional features include drop-in product loading, PLC controlled touch screen interface, optional automated bond site alignment, integrated vision assist system, cycle data acquisition and output with networking capability.

About Machine Solutions Inc.

Machine Solutions Inc. is a leading manufacturer and pioneer in providing the medical device community with the premier solution for catheter processing applications. MSI has been instrumental in automating or semi-automating several manual processes within catheter manufacturing organizations. Please visit www.machinesolutions.com for additional corporate and MSI product information.
